Dallas Baker Jr., Jana Potvin, Charde' Tunnell

Worcester County Public Works – Water and Wastewater Division

Lee Beauchamp, Shane Odegaard

Worcester County Treasurer's Office

Ondrea Starzhevskiy, Quinn Dittrich

1. Review of proposed FY 27 budget / projects
 - a. Review of the FY 27 Budget Request – **no rate change**
 - b. Capital Projects/Equipment Budget Requests – **no capital projects proposed**

2. Review of FY 26 budget / projects
 - a. Capital Projects/Equipment Budget Status
 - i. Sunset Avenue Sewer Relief Project - **Complete**
 - ii. Pump Station 1 Wet Well Design & Permitting – **project to filter out rags & other things from getting into the pumps and clogging them up. Currently under design.**
Was able to reach a deal with Ocean City where they are willing to accept the sewer from Landings & Assateague Point, that flow will go through the Sunset Ave relief sewer, so we're having the consultant look at that pipe to see is if it's big enough to take the flow, if not it will have to get them upsized. Assateague Point and Landings are paying for that revaluation of it.

3. Questions from the Board...

Are we still hauling from Glen Riddle to the Chamber of Commerce. **No, we have not, that stopped in November.**

Next meeting around same time, next year 2027.
