The regular meeting of the Mystic Harbour Advisory Board was held at 4:00 PM on Monday October 7, 2019 at the Mystic Harbour Association meeting room.

Chairman Richard Jendrek started off the meeting by reviewing the meeting minutes from the July 22, 2019 meeting. The minutes were approved by Marty Kwesko and Bob Hunt.

Eagle's Landing irrigation system: The spray irrigation system was discussed. We have begun sending treatment Plant effluent to the golf course and the irrigation system is working well.

In the month of July, all effluent produced by the plant was used on the golf course. This will help the operation of the injection wells.

Frontier Town: The Frontier Town connection has been completed and the pump station is now operable. We have now been accepting wastewater from Frontier Town for most of the summer and the treatment plant is performing well although we are now operating all 3 trains.

The meeting adjourned at 5:00 PM by Ed Weitzell and Bob Hunt.

The next meeting will be January 13, 2020 at 4:00 P.M.
