Temporary Water Outage Around 1264 Ocean Parkway During Emergency Repair

Snow Hill, Maryland – Worcester County Public Works will shut off water in the area of 1264 Ocean Parkway to repair a leaking water valve on Monday, April 21.

Water service for an estimated 100 homes in the surrounding areas of Ocean Parkway, Bearberry Rd, Salt Grass Rd, and Charleston Rd will be affected for approximately 6-8 hours, while crews make the repair. Low pressure may also be exhibited in Glen Riddle as part of this temporary water outage. Two nearby trees may need to be removed as part of the repair.

Following the repair, area residents may experience brown water. If that occurs, please allow the water to run for a few minutes until it becomes clear. If the water remains brown, please contact Water and Wastewater at 410-641-5251.
