County Steep slope data within Critical Area

Soil Survey Geographic data base (SSURGO) Steep Slope data within Critical Area

Threatened and Endangered Species data, County Steep Slopes, State-designated Natural Heritage and Habitat protection areas were provided by Worcester County Comprehensive Planning Department.

SSURGO steep slope data set was provided by the U.S. Department of Agriculture Il Resource Conservation Service, SSURGO data set published in (Only Steep Slopes shown within the Critical Area are depicted.)

Floodplain data - Published in 1995 by the Federal Emergency Management Agency

hese maps are designed for use as a planning tool and not a primary regulatory tool. The information shown is a compilation from various information sources and maps. Field verification will be required.

The Worcester County Critical Area Boundary was established by Worcester County in compliance with the 1984 Critical Area Law. This data set was reviewed, updated and converted to digital format by the MD Critical Area Commission, Maryland Department of Natural Resources and the Worcester Regional GIS Program.

The tidal wetland boundary lines depicted on this map are for guidance purposes only. State of Maryland does not recognize these boundaries as its official Tidal Wetlands boundaries in Worcester County. Maps depicting the State's regulatory jurisdictions may be viewed by contacting the Worcester County Department of Development Review and Permitting.

The first 100' landward measured from mean high water line tidal waters, all wetlands and tributary streams is called "The BUFFER". No alterations, vegetation removal, ding, paving or building can take the place within "The BUFFER". The <u>Intel 100' landward is not mapped</u> hereon. A field survey may be required to accurately establish this line.

See program for additional information.

Tax maps provided by the MD Office of Planning, 2002.

Map Prepared by the Worcester County Regional GIS Program, August, 2000.

Adopted by the Worcester County Commissioners, September 2, 2003.
